

ACP COMPOST PRODUCERS LIST

WHY YOU SHOULD USE AN ACP COMPOST PRODUCER

- Local to your region
- Professional customer service
- Education and outreach experts
- High quality compost producers

ACP COMPOST PRODUCERS PROVIDE QUALITY COMPOST

What is “Quality Compost”? The USCC Seal of Testing Assurance (STA) program is a compost testing, labeling and information disclosure program. Buying [STA Certified Compost](#) means;

- 1) You will be buying compost from a legally [permitted compost facility](#).
- 2) Compost is tested at an STA Certified Lab.
- 3) Each lab uses approved Test Method for Examination of Composting and Compost ([TMECC](#))
- 4) Each certified lab participates in the STA lab proficiency program.
- 5) You will receive a compost analysis that is uniform and easily comparable too other Certified Compost products with a uniform Compost Technical Data Sheet (CTDS).

Key Benefits of Compost

- SOURCE OF KEY NUTRIENTS TO SUPPORT PLANT AND SOIL HEALTH
- WATER RETENTION CAPABILITIES TO DECREASE WATER USE AND RUNOFF
- EFFECTIVE SOIL EROSION MANAGEMENT PRACTICE

ACP can help solve your SB1383 compost procurement challenges!

For questions about ACP or this Compost Producers List, please contact Dan Noble, Executive Director, at danwylthernoble@gmail.com.
