

California Bioresources Alliance Symposium 2020

Building the Regenerative Carbon Economy In California "Making SB 1383 a cornerstone of growing local green communities"

NOV 12 & 13, 2020, 9:00 am – 4:00 pm, both days – A Free Zoom Symposium

About this Online, Two Day, Event

The CBA Symposium brings together municipal organic waste reduction and climate managers, facility developers and operators, local zoning and permitting authorities, regulatory agencies, policymakers, trade associations, public interest organizations, and academia to discuss how to make full use of our valuable organic waste byproducts. Our focus this year includes funding, technology, and social issues that need to be addressed.

Topics That Will Be Addressed

Day 1

1. **Progress:** CalRecycle Update: *Progress Towards the SB1383 Organic Recycling Goals*
2. **Investment:** What do we need to do to encourage investment in industry and market growth?
3. **Market ready solutions:** An examination of alternative solutions to market
4. **Product Quality:** How quality is necessary to build market demand
5. **Emerging Constituents:** What other bumps in the road may we encounter?
6. **Ag Residual Management and Healthy soil:** Application – Case Studies- Making it Real

Day 2

1. **Updates and Case Studies:** Legislation and Rulemaking Updates: SB 1383, CalRecycle, Jurisdictions, Water Board
2. **Research:** LBL Update on Bioresources Accelerating Deployment of Recovery Infrastructure
3. **Emerging Technologies:** Bioresource Solutions and Barriers
4. **Applications:** Reclamation of Fire Damaged Lands
5. **Where are we going in the near future?**
